SUMMARY

Full Stack Developer with hands-on experience building scalable, secure web applications using **MERN stack** and **Next.js**. Skilled in **React.js**, **Node.js**, **REST APIs**, **JWT** authentication, and modern frontend practices including Tailwind CSS. Experienced in database migrations and schema design with PostgreSQL/Sequelize.

EXPERIENCE

Bestpeers InfoSystem

Sept 2025 - Present

Full Stack Projects (Tech Stack: React, Next.js, Node.js, Express.js, TypeScript)

Indore, India

- Contributed as a **full-stack developer** on multiple projects using **Next.js** and **React**, building scalable, responsive web applications and backend services.
- Developed backend services using **Next.js** and **Node.js**, integrating **REST APIs** and handling authentication flows with **JWT** and **Auth0**.
- Worked with **MongoDB** for data modeling and defining schemas, and with **PostgreSQL/Sequelize** for database migrations and schema setup, ensuring database consistency and performance.
- Optimized frontend performance using **React.memo**, **lazy loading**, and **code-splitting**, enhancing page load times and UX.
- Wrote **clean, maintainable, and secure code** with best practices in version control (Git/GitHub) and peer reviews.

TATA CONSULTANCY SERVICES

Feb 2024 - Sept 2025

React Frontend Project (Tech Stack: React, JavaScript, Tailwind CSS, NodeJs)

Indore, India

- US Banking Client Project - Contributed as a **React.js developer** on internal applications, building **reusable, responsive UI components** aligned with design mockups (Figma → React).
- Implemented **state management** using **Context API/Redux**, reducing prop drilling and improving maintainability.
- Integrated **REST APIs** with Axios, handling authentication flows (JWT) and error management for smoother client-server communication.
- Optimized application performance using **React.memo**, **lazy loading**, and **code-splitting**, improving page load time.
- Wrote **secure, scalable code** with best practices in version control (Git/GitHub) and peer reviews.

PROJECTS

PassWired - Password Manager 🔗 | React JS, Express Js, MongoDB, Tailwind CSS, Redux **July 2025**

- Built a secure, mobile-first **Progressive Web App** for password management using **React.js**, **Node.js**, **Express**, **MongoDB**.
- Implemented **AES-256 encryption** and **JWT-based authentication** to ensure security.
- Designed a responsive UI using React and Tailwind CSS. Has toast notifications, Modals, sleek design and seamless UX flow.
- [Live Link](#) [GitHub Link](#)

ResuFusion - Resume Builder 🔗 | React JS, Express Js, MongoDB, Tailwind CSS

April 2025

- Built a **full-stack web application** using **MERN Stack**, enabling users to create and download dynamic resumes in PDF format.
- Designed a responsive, modern UI with **React + Tailwind CSS**, ensuring cross-device compatibility.
- Implemented backend APIs for **resume data storage and PDF generation**, improving user experience.
